# CALL FOR PARTNERS

## WHY BECOME A PARTNER?

The **2022 STEM Discovery Campaign** is a joint international initiative organised by Scientix that invites projects, organisations, libraries, schools, universities and youth clubs across Europe and around the world to celebrate careers and studies in the fields of Science, Technology, Engineering and Mathematics (STEM).

The theme for this year's campaign is **STEM for all**. STEM is present in virtually all aspects of our lives. That is why we believe everyone should have access to STEM education emphasizing the value of Science, Technology, Engineering and Mathematics. This year, we encourage every educational stakeholder to organize events and activities that raise student awareness and make STEM accessible to everyone, showcasing key skills that students and our societies will need in the near future.

For this reason, we invite public and privately funded projects, non-governmental and governmental organizations, universities, libraries, youth clubs, companies and schools active in STEM education to **join this call for action for the 2022 STEM Discovery Campaign**.

Running from the **1 February to 30 April 2022** with a peak of activities during the week of 23 to 30 April, the STEM Discovery Campaign gives the opportunity to all educators and researchers to participate and celebrate STEM. We invite everyone to organize STEM activities and feature them on the STEM Discovery Campaign map!

## HOW TO BECOME A PARTNER?

By **becoming a partner**, you **give immense visibility to your project, school or organization**. Teachers from across Europe will be informed about your project and will use and further greatly disseminate your resources and ideas for activities. You will additionally have the opportunity to network with coordinators of other projects in STEM education and will be given the chance to organize webinars in order to inform teachers and other stakeholders in STEM education about your activities.

To become a partner, you need to affiliate your project, school or organization with the campaign, by following the instructions in our **guide for partners**. Once the information is published, you can contact us and apply to become a partner by filling in **the online form**, also included in the guide. As a partner of the STEM Discovery Campaign, **you will have your logo and web link displayed in the dedicated banner** for all the partners that are involved in the campaign.

The STEM Discovery Campaign has been funded under the European Union's H2020 research and innovation programme – project Scientix 4, coordinated by European Schoolnet (EUN). The content of the document is the sole responsibility of the organizer and it does not represent the opinion of the European Commission (EC), and the EC is not responsible for any use that might be made of information contained.
