

Partnering with the STEM Alliance

The [STEM Alliance](#), coordinated by European Schoolnet (EUN), the network of Ministries of Education in Europe, brings together industries, education stakeholders and Ministries of Education to promote Science, Technology, Engineering and Mathematics (STEM) education and careers to young Europeans to address anticipated future skills gaps in Europe.

As STEM Alliance partners, companies:

- Are at the forefront of European and global companies that have realized the need to tackle the STEM skills gap.
- Benefit from the wide-reaching STEM Alliance network that brings together key education, policy, and industry actors.
- Boost their visibility at the European level in STEM-related media outputs and can initiate concrete activities and campaigns targeted at teachers and students across Europe, conducted with the STEM Alliance.
- Gain access to and contribute to STEM Alliance knowledge, research, publications and reports.
- Shape Europe's STEM discourse by discussing best practices in topic-specific workshops, webinars, and high-level events.
- Develop partnerships with education stakeholders at local, national or European level.
