

Discovery Week 22-28 April 2019

ABOUT THE COMPETITION

This year Scientix hosted two competitions: one competition invited participants to organise activities using resources from the Scientix repository. The other competition, co-organised with SYSTEMIC, encouraged teachers to showcase best practices in STEM education.

Winners of both competitions were chosen based on their submitted blog posts. Out of 108 submissions, 13 entries were selected taking into account a variety of criteria.
